

Independent Auditor's Report

To the Shareholders of I.C.C. International Public Company Limited

I have audited the accompanying financial statements in which the equity method is applied and separate financial statements of I.C.C. International Public Company Limited, which comprise the statement of financial position in which the equity method is applied and separate statement of financial position as at 31 December 2012, the related statements of comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements in which the Equity Method is Applied and Separate Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in which the equity method is applied and separate financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements in which the equity method is applied and separate financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements in which the equity method is applied and separate financial statements based on my audit. I conducted my audit in accordance with Thai Standards on Auditing. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements in which the equity method is applied and separate financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements in which the equity method is applied and separate financial statements referred to above present fairly, in all material respects, the financial position as at 31 December 2012 and the financial performance and cash flows for the year then ended of I.C.C. International Public Company Limited in accordance with Thai Financial Reporting Standards.

Other Matter

The financial statements in which the equity method is applied and separate financial statements of I.C.C. International Public Company Limited for the year ended 31 December 2011, were audited by another auditor who expressed an unmodified opinion on those statements on 8 February 2012.
